

NOTICE TO SURVEYORS T8/2002

CESSATION OF DUPLICATE PLAN MAINTENANCE

Further to Notice to Surveyors T2/2000. As new deposited plans deal almost exclusively with whole lots, surveyors and searchers should note that the cross-indexing on existing freehold duplicate (mini) plans and diagrams, affected by new subdivisions and cancellations, has now ceased.

When undertaking searches, the SIP View in SmartPlan must be used, in conjunction with reference to the images of the Survey Index Plans.
